

Proposed filing sizes by borough

Share of each borough-period's 50+ observations; one-unit bins

A/B rental-opportunity sample. Denominators include sizes above 300. Dashed lines: 99 and 198.
Pre and post share a vertical scale within each borough; scales differ across boroughs. Small samples are unstable.
A 99+99 parent contributes two filings at 99. Unadjusted comparisons; post linkage windows remain incomplete.
